# Multidisciplinary Temporary Healthcare Personnel

– an NHS Improvement approved framework

**Reference:** RM3711

**Start date:** 1 September 2015

**End date:** 31 August 2019

## Why choose us

The Multidisciplinary Temporary Healthcare Personnel framework is the only NHS Improvement approved framework through which you can source all your temporary clinical staff needs via a single framework. This includes clinical staff across all health and social care job roles and pay bands including:

- **doctors, consultants, dentists and general practitioners**
- **allied health professionals, health science services and emergency services personnel**
- **nursing and midwifery**
- **personal social services**

### Benefits include:

- **compliant:** NHS Improvement price caps are contractually embedded in the framework
- **flexible:** our override mechanism allows you to stay on framework if you need to go over the price cap to get the right staff, in exceptional patient safety circumstances
- **free to use:** no customer fees or charges
- **support:** we will give you advice and guidance on how to use the framework and provide hands-on support to help you achieve savings through the further competition process
- **choice:** an extensive range of suppliers from small regional businesses to national organisations
- **managed:** our in-house assurance team ensure all our suppliers comply with NHS Employment Check Standards

*“ The help I received from CCS, and in particular Helen Hess, with regards to a recent procurement Doncaster and Bassetlaw Hospital ran through the framework for Multidisciplinary Temporary Healthcare Personnel, on behalf of three trusts, was of the highest standard and helped the trust to complete a successful procurement that will save millions of pounds a year. ”*

Richard Somerset, MCIPS, Senior Category Manager  
Doncaster and Bassetlaw Hospitals NHS Foundation Trust

## Getting started

You can use the framework either as an individual trust, a consortium of trusts or a collaborative procurement organisation, such as a procurement hub.

Staff can be sourced on a temporary or fixed term assignment and the framework can be used to source roles of a specialist nature. Suppliers can supply you either directly or through their supply chain of sub-contractors.

If you decide you are able to make a direct award - in line with framework guidance which can be found on the website - you can liaise directly with your chosen supplier to fulfil your requirements. If you decide to run a further competition to ensure best value we have a team who can help you.

**If you need temporary non-clinical staff they are covered by our Non Medical Non Clinical framework (RM971).**

## Our suppliers

For a full list of suppliers - by lot - and details of sub-contractors please visit the website.

## Help and support

Your framework manager is Carol Foster:
